

## ABOUT IPA

IPA determined to add action to your dreams in photography, irrespective of your final destination with your camera. It is understood that the quality of an academy is determined by its faculty. The certified faculty of award-winning photographer at IPA, brings with its expertise of photography and years of teaching experience. Start by photography professional, who is very enthusiast to teach photography, IPA offers its cutting-edge high level courses at a very affordable fee, as compared to the prevailing market trend. It has been made possible by the common drive among all instructors to make IPA, a centre for excellence in visual arts education, rather than running it like a business. IPA conducts regular classes on photography for different levels of students. IPA also conducts short term certificate courses to familiarize students at different environments and locales, IPA conducts Photo Tours and special workshops on different genres. Many of students have benefitted by attending our courses. We are also keen on featuring your photography ideas at this digital photography academy and welcome your submissions.

You don't take  
a photograph.  
You make it.
